

## [State]

---

For More Information:

[Name]

[Title]

[Number of sites] in [Name of State System or Network] serve [number of families] across [state or legislative district].

### Costs

For every dollar spent on the prevention of child maltreatment, at least two dollars are saved that might have been spent on treating its consequences. **It would cost less than half the amount society presently spends treating and managing these consequences to make Healthy Family America services available to all families that want them.** In [state or legislative district], providing services to all families would cost [\$]. (Or any local statistics available)

### Funding Sources

While Healthy Families America is a national initiative, it is funded and operated primarily at the state and local levels through state and local agencies, federal block grants and private supporters. Supporters of [Name of State System] include:
